Repeating tiles

One of the specialties of Blackhawk artisans is the design of repeating tile patterns. Some have a simple graphic theme, as the celtic knot pattern, or organic themes as with this Garden Pea pattern.

This pea border also has corner pieces so repeating tiles can wrap around a rectangular space.

Celtic border tiles shown in our Copper Green, and Honey Brown glazes, and Cream under Clear glaze.

This tile pattern is very versatile and can be used in many settings such as backsplashes and as a 8 1/2" wide fireplace surround.

10" x5" Prairie Wheat pattern consists of Right, Left, and Blank tiles and can be arranged in a variety of patterns

Other repeating border patterns:
6" Vegetable Border in White; Vegetable Border in hand-painted polychrome;
5" Indian Corn Border in polychrome, and 4" Floral Band in Polychrome
