Architectural Terra Cotta Framing

A frame can add so much more drama to your tile whether your tiles are monochromatic or fashioned using many bright colors. We can engineer a frame to fit your style and tile.

This 26" X 35:" Stylized flower Mural is subtle in color but dramatic in the use of tiles set on the diagonal. Coated in cream, it lends itself well to a kitchen.

This pattern also looks fabulous in polychrome. Here we have used a teal background and yellow flowers with red centers. We have also reproduced these tiles in antique, muted, naturalistic tones, and also in our honey glaze.
