

# Tatanka Arts Proposal for a Multiple Use Green Space in downtown Redwood Falls

**Initial Artist Sketches** of the plot of the proposed site and sketch of the space. We envision a lawn space with gardens and ruin (columns). This arrangement would lend itself well to several events including an art fair, farmer market, weddings, musical entertainment, a snow festival, etc. Our hope is to help revitalize the downtown and make a comfortable, eye-catching space for people to congregate and enjoy a nice day or event. Sketches by Gerald Patten

**Trivent Financial Building**  
Sketch of existing bare side with new mural in folksy European style

**Below-Artist enhancement of Photograph**  
We are looking from the building site to the green space which includes columns and plantings.
